GENERAL INSTRUCTIONS

ALL PRICES SHOWN ARE F. O. B. FACTORY. This price list supersedes all previous price lists. Prices subject to change without notice. If quotation is rendered to any buyer located in a state where the seller is required to pay a sales, use or occupational tax, then said tax will be added to the price quoted and rendered as a part of the invoiced price.

SHIPMENTS: All products are shipped Set Up unless marked Knocked Down (KD) in Standard Packaging column in price list.

Full carload orders consigned to one destination in the area served by the Assembly Plant will be shipped from Factory but priced F.O.B. Assembly Plant with freight allowed to destination (except carload shipments of stools which are billed F.O.B. Aurora Factory only. Ask for prices).

We reserve the right to ship material incorporating latest changes in design and, due to scarcity of certain items, to substitute hardware and fittings of equal quality, and methods of packing including material for same.

RETURNED SHIPMENTS: Unless authorized in writing by the Company, material cannot be returned for credit.

DAMAGE IN TRANSIT: Lyon products are carefully and securely packed for shipment and if carriers handle with ordinary care these products will reach destination in first class condition. The receipt of our goods by the Transportation Company ends our responsibility. Our customers should inspect shipments and protect their interests by refusing to accept damaged shipments until they secure damage notation on freight bill. All claims for delay, loss or damage must be made against the carrier.

CORRESPONDENCE: Address all communications to the Lyon salesman in your territory. He is in a position to give you prompt service. Do not send orders or letters to General Offices at Aurora.

SHELVING INSTRUCTIONS:

PRICES: The prices listed are for regular standard sizes that will meet practically every shelving requirement for which this product is designed. Any other sizes will be special and prices must be secured through your Lyon District Office.

ORDERING: In ordering complete Racks, order by Rack Number, number of First and Additional Sections, and Size. In ordering parts list all items showing (1) quantity, (2) descriptive name, and (3) listed size. The best method is to make a rough front elevation of complete racks and then count the number of uprights, shelves and accessories required.

LOCKER INSTRUCTIONS:

PRICES: Each locker price shown is per locker door opening and applies to lockers with standard equipment — without lock — shipped Knocked Down.

NOTE: A locker door opening is a single locker opening which may be in a tier 1, 2, 3, 4, 5 or 6 door openings high and for 1, 2, 3, 4 or 5 units wide.

SECTIONIZING: In ordering specify number of locker openings per section and whether single row or double row.

LOCKS: Padlock attachment is furnished as standard unless built-in flat key lock is specified. Add $1.35 per locker if built-in flat key lock with two keys is required. If other type of lock—combination padlock, etc.—is required, write your Lyon District Office.

MASTER KEYS: When master keys are required specify quantity at 46c per key.

To All Lyon Dealers

Subject: Revised Shop Equipment and Ironing Table Prices

We are attaching new price list dated September 1, 1947, which cancels and supersedes all previous price lists. Your discount remains the same in accordance with discount sheet 333-E.

We are getting this price list into your hands as early as possible, because even though the effective date reads "Effective Immediately" these prices will not apply to shipments until September 15 and thereafter.

Our hope and expectation all of this year has been that we would not have to revise prices, but increases in our labor costs and in the cost of our major basic raw material, steel -- effective August 1, 1947 -- coupled with increases in other of our raw material purchases made of steel, force us now to revise certain of our prices to recover some of these increased costs.

Considering our entire product family, this price change is very reasonable, being only an average increase of 4.5%, based on what we are currently manufacturing and shipping. As a matter of fact, out of a total of 476 items in the price list, 118 are not increased, and those products which have not been changed in price include such volume lines as work benches, bench legs, box inserts, tool cabinets, tool inserts, conveyors, bar racks, blueprint cabinets, ironing tables, etc.

We will continue this same policy of reflecting in our prices, all benefits of increased production efficiency and plant handling, and absorbing cost increases wherever possible, in order to keep you competitive.

Our shipments to date are showing improvement over 1946. We are exerting every effort to maintain and increase this production and it is our sincere belief that the steel situation will show additional improvement in early 1948. This will automatically reflect in increased shipments and better service to you. May we continue to advise you, however, to watch fixed overheads to keep them in direct relation to receipts of material. We are continuing this advice, because anything made of sheet steel will continue to remain scarce indefinitely.
